- ✓ **Web Development**:- HTML, CSS, JavaScript, Basic React.JS ,Tailwind CSS
- ✓ **Programming Languages**:- Python , C
- ✓ **Database**:-MySQL
- ✓ **Tools** :- Git, Github ,VS Code, Basic Excel and Power BI.

Projects:-

Project Title: GlowGear – Product Landing Page Website
Tech Stack: HTML, CSS (Optional: basic JavaScript for interactivity
Description
Designed and developed a fully responsive landing page for a fictional tech product called *Glow Glear*. This project showcases clean UI design, visual hierarchy, using only HTML and CSS.

Key Features:

- **Modern Web Layout:** Structured sections for Home, Features, Pricing, Testimonials, and Contact.
- **Responsive Design:** Used CSS Flexbox and Grid to ensure a seamless experience across mobile, tablet, and desktop screens.
- **Smooth Visual Effects:** Implemented hover effects, CTA buttons, and scroll-friendly layouts for a polished user interface.

Project Title: Smart Task Tracker – To-Do List Web App
Tech Stack: ReactJS, HTML, CSS
 Description:
Built an interactive and responsive To-Do List web application to streamline daily task management. Demonstrated strong skills in React-based component development, state management, and modern UI design.

 Key Features:

- **Task Management:** Users can add, delete, and mark tasks as completed.
- **State Management:** Used React's Usestate hook for dynamic UI updates and real-time tracking.
- **Clean UI Design:** Developed a user-friendly interface with intuitive controls, hover effects, and mobile responsiveness for all screen sizes.

Project Title: MyPortfolio Hub – Personal Developer Showcase
Tech Stack: ReactJS, Tailwind CSS, HTML, CSS
Description:
Created a fully responsive personal portfolio website to showcase my projects, skills, and contact information. Built with React's component-based architecture and styled using Tailwind CSS. The site demonstrates my ability to design clean UIs, implement reusable components, and ensure mobile responsiveness.

Project Title:-HR Analytics Dashboard | Data Visualization
 Description:-Designed and developed an interactive HR Analytics Dashboard using Power BI to analyze employee attrition trends. Utilized key metrics such as employee count, attrition rate, average salary, and demographic insights to provide actionable insights.   Implemented various data visualizations, including bar charts, pie charts, and tables, to represent attrition by education, age, salary, and job roles..
